

SWALAVA Enterprises PVT. Ltd.

A start up providing services in development of Pharmaceutical, Herbal & Nutraceutical products using **Hot Melt Extrusion (HME)** Technology. Swalava support the clients with **Product or Process development for potent and non-potent product** at our lab.

We have a *Lab scale extruder* uniquely designed for Pharmaceutical material processing

- a. **Melt Extrusion,**
- b. **Melt Granulation,**
- c. **High Shear Mixing & kneading**
- d. **Wet Granulation**

We have collaboration with IDRS Labs Pvt. Ltd. SWALAVA provides support for product development using HME and IDRS provides services for upstream and downstream formulation development and analytical services along with ICH-Stability study.

“Enhance bioavailability of your poorly soluble API (BCS Class II & IV) which will lead to better therapeutics efficacy”

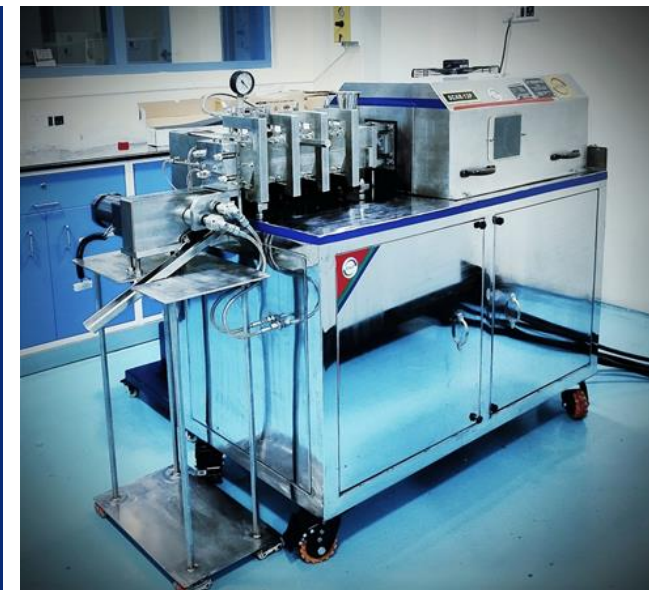

Following services for suitable dosage form are provided by Swalava using HME Technologies

Services

- Feasibility or Proof-of-concept Trials
- Process Development
- Product Development (End to-end)
- Capability to Handle Potent compound (OEL 4)
- Scale up and Tech transfer
- Troubleshooting
- Provide lab Scale HME on rental basis

Dosage forms

- Solubility/ Bioavailability enhancement
- Modified release
- Taste masking
- Fast dissolving film
- Semisolid
- Dispersions (Suspensions & Emulsions)
- Transdermal patches
- Drug eluting stents
- Encapsulation of flavors & essential oils
- Reducing bioburden herbals
